**ACTION THAT PUTS THE RIVER AND
HARBOR BILL IN A HOLE.**

**Randall's Navy Proposition Knocked Out
—The Senate Gives the Mail Subsidy
Another Chance in the Post-
office Bill—Notes.**

WASHINGTON, Feb. 24.—The ques-
tion was regularly considered Monday
by the Senate, whether the House
should give precedence to the general ap-
propriation bill or to the river and har-
bor bill. Randall signally re-
minded that the time had come for
the House to decide whether it would
take the safe road or the dangerous path.
To put every man on record he then
made a roll-call, and the appropriation
committee gained the right of precedence by
the narrow majority of only 9 out of 261
votes cast. Randall's implied reference
to the danger of an extra session unless
his committee was allowed to hold the floor
without interruption served him from dis-
tance. Murphy, Henderson of Illinois,
Willis, and other friends of the river and
harbor bill were greatly disappointed at the
result. Henderson had his desk piled
with notes and books referring to the bill
in arguing his appeal upon the Tennessee
matter. This action puts the river and
harbor bill in a critical position and it is
doubtful if it gets through at all.

The naval appropriation bill was radically
changed before the House got through with
it Monday afternoon. There was an inter-
esting debate of nearly two hours upon
Randall's proposition, looking to the creation
of a board of naval officers and civilians to
inspect the navy and naval machinery to re-
ceive and adopt plans and contracts for the
building of vessels.
Thomas of Illinois, finally knocked the
bottom out of the Randall proposition by
moving a point of order which was the
subject of the bill upon a ruling of the chairman
of the committee of the whole. Immediately
afterward Talbot of Maryland, proposed an
appropriation of \$1,750,000 to build and arm
cruisers of 10,000 or 12,000 tons dis-
placement, and of the highest attainable
speed; two amendments were adopted by 72
majority. The Republicans all voted for it
except Anderson of Kansas, and twenty-five
Democrats voted against it.
The Senate spent the day on the postoffice
appropriation bill, and concurred with the
House provisions for a special 10-cent stamp
for letters for immediate delivery, and re-
quiring the bureau of engraving and print-
ing to make bids for printing postage stamps,
and left in the bill a provision that
articles in newspapers sent at third-class
rates might be mailed. Brown took a good
deal of interest in this, and carried it through
against considerable opposition. Murdock
succeeded in getting office rent for third-
class offices provided for. Frye then offered
a modified form of the Pacific mail sub-
sidy clause, which the House struck out. His
amendment was as follows:
For transportation of foreign mails, in-
cluding railway, transit across the Isthmus
of Panama, \$200,000; and for the postman-
general is hereby authorized to enter into
contract for the transportation of any part
of said foreign mails by legal conveyance,
with the lowest responsible bidder at a
rate not exceeding 50 cents a ton per mile
on the line of such conveyance, and to be
between the terminal points. Provided, that
the mails so transported shall be carried on
American steamships, and that the agree-
ment of such contract shall not exceed one-
half of the sum here appropriated.

Back made the point that it was gen-
eral legislation and barred by the Isthmus
of Panama clause. The opponents of the clause
based their opposition on the charge that it
would principally benefit the Pacific mail
company and Van Wreke regarded the Senate
with some more color than the House.
Henderson of Illinois, however, his chief
objection to the proposition was that the
steamship company got a subsidy of \$1,000,
000 a year from the Central and Union
Pacific railroads as an inducement to it not
to undersell them in freight rates.
The amendment was adopted by a vote of
30 to 18. Van Wyck was paired, and Hill
was the only Republican who voted against
the amendment. Four Democrats—Brown,
Call, Morgan, and Fugh—voted for the
amendment.

The Des Moines River Land.
WASHINGTON, Feb. 24.—The bill
to quiet the title of Des Moines river settlers,
as it passed the Senate, provides that all
lands improperly certified to Iowa by the
department of the interior under an act of
Aug. 4, 1864, for which indemnity lands
were selected and received by the State
of Iowa, shall be public lands of the
United States. The bill also confirms
and validates the claims of persons who
have been in good faith in Iowa under
the pre-emption or homestead laws entered
upon prior to January 1, 1889, not ex-
ceeding 160 acres, and approves that upon
the proof thereof and the payment of the
usual price or fees (where not already paid)
patent shall issue. It also confirms and
validates the titles of all bona fide claimants
under color of title from the State of Iowa
and its grantees, or the United States and
its grantees, which do not come in conflict
with persons who with intent in good faith
to obtain title under the pre-emption or
homestead laws of the United States settled
upon the lands prior to January 1, 1889.

Congress Convenes.
WASHINGTON, Feb. 24.—The Senate
Monday opened the 24th day of its session
with the roll call and the postoffice appropria-
tion bill, taking to the latter an item of \$200,000 for
the transportation of foreign mails by
American steamships.
The House of representatives concurred in
the Senate amendments to the house bill
forfeiting the Texas Pacific land grant, and
also the amendments to the bill to prohibit
the importation of foreign labor under con-
tract. It then offered resolutions to
prohibit the discrimination by Germany
against American products, and inquiring
of the committee on foreign affairs if re-
taliatory measures are not desirable. Parkins
introduced a bill to open the Oklahoma land
to homestead settlement. The naval appropria-
tion bill was amended by an item of \$1,750,
000 for the completion of a steel cruiser, in
which shape it passed.

Plenty of Room at Washington.
WASHINGTON, Feb. 24.—The com-
mittee on public comfort of the inaugural
ceremonies report that they have accommo-
dated for 30,000 or 40,000 people in addition
to the large number that they have already
provided with accommodations. The mem-
bers of the committee hope that the im-
pression will not get out that there is lack of
room in this city, for such is not the case,
and they say that they will be able to pro-
vide for everybody that comes.

The Pacific Railway Funding Bill.
WASHINGTON, Feb. 24.—Senator
Sherman has introduced an amendment to
the Pacific railroad funding bill.
"That no dividend shall hereafter be made
upon the stock of either of the railroad com-
panies named in and accepting the pro-
visions of this act, except from the net earn-
ings of said company, within one year pre-
ceding each dividend after the first, and
other fixed charges shall have been paid in
full, and the current expenses of run-
ning the road of said company have been
paid," etc.

The Inter-State Commerce Bill.
WASHINGTON, Feb. 24.—The indica-
tions for the passage of an inter-state com-
merce bill are not encouraging. The com-
mittee on commerce have not yet reported
on the bill, and the House has not yet
acted on the bill. It is likely to pass
later.

WASHINGTON, Feb. 24.—Gen. Hor-
acio Capron, ex-commissioner of agriculture,
died in this city Sunday night. He attended
the dedication of the Washington monument
at Washington on Saturday afternoon, and
a severe cold. Monday afternoon he was
taken seriously ill, and at a late hour in the
night died.

The Cases Against Swains.
WASHINGTON, Feb. 24.—Secretary
Lincoln has received the report of the court
in the second court-martial of Gen. Swains.
It is generally believed that the court favors
acquittal in this case. The sentence of the
first court is as much a mystery as ever.

Help for New Orleans.
WASHINGTON, Feb. 24.—There is in
the treasury civil bill an appropriation of
\$200,000 to pay the creditors of the New
Orleans exposition.

ANOTHER RAILWAY WRECK.

A Chicago, Burlington & Quincy Train
Crossed Down an Embankment
DES MOINES, Iowa, Feb. 24.—A train on
the Burlington branch of the Chicago, Bur-
lington & Quincy railroad, when two miles
out of Chariton, Saturday evening, jumped
the track, and was precipitated ten feet
down an embankment. Several cases were
wrecked, and the following persons injured:
Dr. Todd, of Chariton, injured in his side;
Mr. Voght, of Keokuk, slightly bruised;
C. E. McDonald, of Ottumwa, a slight scalp
wound; Joseph Seiford, of Villisca, severe
cuts about the head and back injured; Con-
ductor Avery, of Chariton, injured in the
head; Mrs. Van Winkle, of Oquay, slightly
cut over the eye, but was able to go home.
The train ran a distance of about 50 feet
after leaving the rails before turning over.
The baggage-car went about 100 feet after
breaking from the coach, with much speed
and down grade.

A LONG CHASE FOR A CRIMINAL.

**Capture of a Man Who Sailed Down the
Body of His Victim.**
BRACEBRIDGE, Ont., Feb. 24.—On Jan. 10,
1894, in this township, Columbia county, N. Y.,
Oscar P. Beckwith, alias Charles White,
murdered his companion and partner, cut-
ting the body of the victim into pieces,
burning the head and limbs in a box-stove
and sailing down the trunk.
The body of the victim was found in the
river, and the stony which had been occu-
pied by the deceased and the prisoner,
Detective J. P. O'Donnell, of
Kinderhook, N. Y., went to work on the
case, and followed the criminal to the Pacific
coast. The party passed through here Mon-
day with the murderer en route to Toronto.

Disastrous Explosion of Dynamite.
SPRINGFIELD, Mo., Feb. 24.—A disas-
trous accident occurred here Monday
through an explosion of dynamite. Large
quantities of the explosive are used in blast-
ing granite. A drill-hole was made Monday
afternoon in which some of the dynamite
was placed, with a fuse attached, and the
bands retreated. For some cause the dynamite
failed to explode, when Edward
Holmes, Junior Hamilton, and Wylie Law
were sent to clean out the hole. They
had no sooner started it than a terrific noise
was heard. Rock was scattered
in all directions. The man were found
alive, though badly mutilated. The explosion
had blown the rock away from under
them, leaving them on the spot where
they first stood. Hamilton gives a thrilling
account of his sensations as the three men
stood in the smoke with huge pieces of granite
flying up into the air from about their
feet. Holmes has lost his eyesight and will
die, while it is probable that the others will
recover.

The Penitents in Council.
PARIS, Feb. 24.—Eleven delegates were
present at the Penitents convention here Mon-
day. All were armed with revolvers, which
it was stated they were prepared to use in
case of any unexpected attack upon them.
Two of those present were from the United
States. John Morrissey, a native of County
Carlow, Ireland, was chosen to preside over
the meeting of the Penitents of the world.
The purpose of the meeting was to discuss
the question of giving information concerning the
explosive, and to receive orders for such quantities
of it as the body saw fit to purchase.
The meeting was a very quiet one, and
against the use of dynamite to the injury of
innocent women and children. Their affairs
produced no effect.

The Man With the Pig and Rooster.
BALTIMORE, Md., Feb. 24.—P. B. Lespe-
nasse, the Rockland county, (N. Y.) farmer
who, having lost a hog on the recent pre-
sumption of his wife, was prepared to use
any means to recover it, was here Monday
carrying a live pig under one arm and a
rooster under the other, arrived here Mon-
day afternoon. The story through which
he passed, and which was interesting to
spectators, and the novel scene was the cause
of much merriment. If Mr. Lespenasse was
to reach Washington by March 4, and form
the tail end of the inaugural procession with
his pig and rooster, he forfeits \$1,000.

An Enormous Meteor.
VICTORIA, B. C., Feb. 24.—A meteor
passed over this city Monday morning about
5 o'clock, and was witnessed by a large num-
ber of people. It was a mass of molten iron,
the noise caused by the passage was like escap-
ing steam, and smoke and flames were
thrown off. It was seen to descend into the
sea at Haro island. A cloud of spray and
steam rising marked the spot where it
struck. This extraordinary phenomenon
was witnessed by many persons.

Didn't Rob the Mail Bags.
LONDON, Feb. 24.—The owners of the
White Star line steamer Cuttie, at Liverpool,
say, in relation to the cutting open of
mail bags on the voyage from New York
that the mail bags were delivered intact. A
dispatch bag had been tampered with, but none
of its contents were taken.

Accidentally Poisoned.
NORFOLK, Va., Feb. 24.—Miss Mary
Branch, a maiden lady living in this city,
accidentally poisoned herself with rat poison
when she used Salzer's and after suffer-
ing great agony died from its effects Monday
morning.

Got Through the Drifts.
KANKAKEE, Ill., Feb. 24.—The first
passenger train from Bloomington since the
blockade over the Illinois Central road
reached Kankakee Monday. It left Bloom-
ington Feb. 16, and has been 196 hours in
making eighty-six miles.

Quit Voting Again.
SPRINGFIELD, Ill., Feb. 24.—In the joint
session of the legislature Monday both par-
ties again adopted the policy of not voting,
and the only vote cast for the United States
senator was that of Speaker Barnes for Mon-
rison.

An Editor Appointed Railway Receiver.
BATAVIA, Ohio, Feb. 24.—John R. McLean,
of the Cincinnati Enquirer, has been made
receiver of the Cincinnati & Eastern railway
to succeed Samuel Woodward, resigned.

Mrs. Lowell's Funeral.
LONDON, Feb. 24.—Mrs. James Russell
Lowell was buried Monday at Kensal Green
cemetery. Mr. Lowell broke down com-
pletely at the grave, and wept like a child.

Only Fractures of Liver.
How many persons live only a fraction
of average human life because they
neglect to take the commonest precautions
against sickness. It is disease in its in-
fancy that kills, and maturity implies
growth. A slight indisposition is usually
slighted. They who avail themselves
of Dr. Williams' Pink Pills know it to
be effective in chronic cases of disease,
but the process of cure is a far easier
one if it is used in early stages of dys-
pepsia, malinal disease, rheumatism,
constipation, and liver derangement.
Get these pills and avoid the peril
which even the most potent remedies
cannot avert, after clear of the rock upon
which so many constitutions split—an
under appreciation of the danger of neg-
lect. It will not do to omit this and
rely on the chance that health is in a
fact. If debilitated or nervous or dys-
peptic, take it for granted you are in
it of the remedy, use the bitters.

HORRIBLE DISCOVERY.

A CHARNEL HOUSE IN THE CENTER
OF EVANSVILLE, IND.

The Abandonment of a Building Used as a
Medical College Develops a Horrifi-
cally Sight—Parts of Twenty-Five
Human Bodies Found.

EVANSVILLE, Ind., Feb. 24.—In an old
building situated on Court-House square,
near the center of the city, and which has
for a number of years been used by the
Evansville medical college, a disgusting dis-
covery was made Tuesday morning. Be-
coming dangerous, the building was aban-
doned last week, and the premises left open.
In the yard at the rear of the building were
found Monday, parts of human bodies
scattered around promiscuously, while here
and there mongrel dogs were engaged in
fighting for the possession of a bone. In the
gutter of the building, which was apparently
made the place of deposit for subjects
after they had been run the dissect-
ing-table, about twenty-five bodies, white
and black, of both sexes, were scattered about
the floor. In the room used for dissecting
purposes were five tables. Four of them
were standing against the wall, covered with
hoods, hair, and other stuff that had adhered
to them. The other table was in position,
and had apparently recently been used, as
parts of a human body were scattered
over the floor, and looked as though they
belonged to a fresh subject. In one corner
was a cornbin coffin which had never
been under ground, but had probably been
taken there by some enterprising under-
taker. In many cases the glands had failed
to remove the stockings from the feet of the
bodies. Every room in the building con-
tains some portion of human remains, and
are also receptacles of old clothes, hats,
bonnets, etc. The premises were visited by
hundreds during the night, and the officials
have taken no steps towards cleaning or fumigat-
ing the place.

FRIENDLY TO THE CELESTIAL.

The Canadian Commission Reports That
An Sin May Come.
OTTAWA, Ont., Feb. 24.—It is now
learned that the Dominion government com-
mission, who visited California and British
Columbia last year to inquire into the ad-
visability of passing restrictive measures to
prevent the further immigration of Chinese
into British Columbia, have reported to the
government against any such action. One
of the commissioners—Secretary of State
Chapman—was fully into taking
evidence in California, while Judge
Gray, his colleague, looked into the question
from the British Columbia point of view.
They agreed that unrestricted immigration
should be allowed, inasmuch as all the in-
dustries of both California and British
Columbia have been to a great extent built
up with Chinese labor, and without it the
Canadian Pacific railway could not have
been completed, and the country would be
at present about 25,000 Chinese in
British Columbia, and the provincial legisla-
ture is petitioning the Dominion government
to reconsider its action of last year in dis-
allowing a provincial act, by which Chinese
immigration was greatly restricted.

Wales and Wife Will Go to Ireland.
LONDON, Feb. 24.—It is announced that
the prince and princess of Wales will make
a tour of Ireland in April, and that they
will hold a series of levees in Dublin castle.
This visit of courtesy and recreation by the
future ruler of Great Britain to the most
disaffected section of the empire, is sure to
form the subject-matter of much comment
and conjecture.
The morning papers contain leading ar-
ticles respecting the proposed visit. The
general sentiment is that the journey is
worth making, and that it will serve to re-
inforce a genuine union does still ex-
ist between the islands. It is also generally
remarked that, all things considered, the
visit will be indicative of pluck in their
royal highnesses.

Free Traders Celebrate.
NEW YORK, Feb. 24.—The New York
Free Trade club sat down to their annual
dinner at the Hotel Hamilton Monday evening.
Letters of regret were read from Henry Ward
Beecher, Senator Bayard and others. After
the cloth had been removed Hon. J. A. Mc-
Kenzie, secretary of state of Kentucky, re-
sponded to the toast of Washington's birth-
day. "The Prosperity of the World Country,"
was responded to by Hon. A. E. O'Sneal,
governor of Alabama. Hon. E. Ellery An-
derson responded to "The Brand Winners,"
and William C. Sumner, "Free Trade."
The evening was also made up by William
Everett, J. C. Sherman and J. B. Sargent.

Traded His Wife for a Team.
COVINGTON, Ky., Feb. 24.—Some months
ago, a man named John Jones, who was
from the United Brethren church of this city,
on account of improper relations with Mrs. E.
S. Jones, his wife, secured a di-
vorce on the same grounds. However
that proposed to legalize his relations with
Mrs. Jones left for St. Joseph, Mo., where
they were married. This is the
third matrimonial venture for each of the
contracting parties.

Two Girls Horribly Burned.
FARMERSBURG, Va., Feb. 24.—Roberta Clay
and Christina Clay, two sisters, aged 16
and 18, respectively, were horribly
burned Monday, their clothing taking fire
from a stove. The physician says that both
will probably die. Miss Roberta died Monday
night. Her sister is in a critical condition.
The girls were from New York, and were
on their way to live with a family in this
city. The girls were taken to the hospital
for the reception of their injuries.

A Woman's Complaint.
Mr. E. Springer, of Meadville, Pa., writes:
"I was afflicted with lung fever
and abscess on lungs, and reduced to
a walking skeleton. Got a free trial bot-
tle of Dr. King's New Discovery of Con-
sumption, which did me more good
than I had expected to find. After using
three bottles, found myself once more
a man, completely restored to health,
with a hearty appetite, and a gain in
weight of 35 pounds."

LOCAL MATTERS.

At the Princesses it was the first night of the Jones Sisters. They are too young for anything—only seven and eleven years old—and with their lovely hair and pretty satin dresses, with lace flounces, pink caps and graceful figures, they were a perfect picture. While gliding noise around that large risk, in the most dainty figures, so easily and with apparently so little exertion, one would almost think they were born with rollers on.

The above little misses will appear at the K-O no risk Friday and Saturday evenings, February 27th and 28th. They should be greeted with a full house.

WANTED—A girl to do general house work. Enquire at this office.

For SALE—A good road mare, 8 years old sound and kind, weighs about 1,000 pounds. Enquire of J. C. Fredendall, Main street.

For RENT—An 8 room house located at St. Paul street; good wall and cistern. Enquire at the premises.

BRIEFMENTS.

—Mrs. H. G. Ebbetts' condition is unchanged.

—Neil Burgess at the opera house tomorrow evening.

—Ron. R. J. Burdick, of Beloit, was in the city to-day.

—Prof. Severance's dancing school at Apollo hall this evening.

—Janesville City Lodge No. 90, I. O. O. F., occupy Odd Fellows hall this evening.

—The entire Gazette force attended the funeral of the late Mrs. R. L. Colvin at St. Mary's church this morning.

—Oriental Lodge No. 22, Knights of Pythias assemble in regular weekly session this evening at castle hall.

—A number of Odd Fellows and their Rebecca went to Milton Junction last night and attended a pleasant social at Odd Fellows hall.

—Ed. F. Carpenter, Esq., will start for Washington on Thursday morning. Ed. has not been called to the national capitol by the president-elect, but goes on legal business.

—The work of shingling the new roller mill is in progress to-day, and at the rate the shingles are being laid on the roof will be completed right away, very quick.

—Two car loads of piles have arrived for the Milwaukee street bridge, and Supt. D. C. Ward will commence the work of repairing the bridge as soon as the weather will permit.

—Progressive euchre progressed several degrees last evening at the home of Mr. and Mrs. E. Leavitt of First ward; several contestants aspired for the green star prize which was finally captured by a bald headed resident of Jackson street.

—In the municipal court, Charles Taylor was sentenced this forenoon to pay a fine of twenty-five dollars and costs of prosecution for assaulting and resisting J. E. Croft, city marshal of Edgerton. In case the fine and costs are not paid, he will be obliged to remain in jail sixty days.

—On Saturday evening, February 23, the new and powerful drama in five acts and seven tableaux, entitled "The Power of Money," will be presented at Myers opera house, by Morris & Book's theatrical combination. The play abounds in magnificent scenery and stage effects, and is said to be one of the most attractive on the stage.

—The New York Sunday Mercury—one of the jolliest entertainments on the local stage is that furnished by Neil Burgess and his excellent company in "Vim." Several very effective scenes and mechanical surprises have been introduced, and the large audiences of the past week have been convulsed with laughter. Of course "Vim" will be continued.

—On the 16th of December, the night of the sack; company charity party, the mercury registered 18 degrees below zero. Persistent practice shows that date has enabled it to make a good record for the winter which will be known in the history of the state as one of the coldest of the century. The shadowless bear has proved a snare and delusion.

—The common council of Milwaukee has instructed the city attorney to prepare an ordinance "requiring all electric light wires that are now suspended in mid-air, and all wires that shall be put up hereafter, to be laid underground, for the reason that when suspended on poles they are liable to damage telegraph and fire-alarm wires, and are said to be dangerous." Perhaps our city authorities had better investigate this matter a little before it is too late.

—In the discussion before the common council, last evening, Alderman Daly doubtless did not intend to reflect upon the honesty of the new gas light company in regard to their contract with the city for furnishing gas. The Gazette is confident that when the committee on gas make their report that the council, as well as the public, will be satisfied that the gas company are above censure direct or implied, in their dealings with the city.

—Died, at Crystal Lake, Illinois, February 23, 1888, of typhoid fever, Miss Maria Robinson. Deceased was a daughter of Mr. E. H. Robinson, and sister of the Messrs. Frank and Sarah Robinson, who were employed for a number of years in the Gazette news room, and resided in the second ward. Some years ago the family removed to Crystal Lake, where they have since resided. The remains will be brought to this city on the 1:20 train to-morrow afternoon from Crystal Lake, and taken direct from the cars to Oak Hill cemetery for interment.

—The New York Herald: Neil Burgess won well merited plaudits from a large audience at the People's theatre last night. From the first scene to the last the witty sayings, the quaint costumes and the astounding efforts of the troupe, and the obsequious lady, who compels her lawful spouse to obey her in all things, constraining him even to wear his Sunday clothes only on state occasions, and forbidding him to sit cross-legged last his pantaloons should be wrinkled, were hailed with peal after peal of laughter. The performance was a thorough success.

—Jond du Lac Commonwealth: The blind musicians, John and Mary McCoy gave a concert Saturday evening in the Grand opera house to a very large audience, and to an enthusiastic one as well. Their vocal solos were encored and Mr. McCoy's character songs aroused continual laughter, he being obliged to repeat some of them to satisfy the clamorous audience. But by far the best part of the concert was their piano duets, difficult selections from Schubert, Gottschalk, Bolini and Aert. These blind people play the piano with a precision and accuracy that is hardly conceivable to one who can see the key board. They never strike a false note and play as one person. During the evening Mr. McCoy rendered, in addition to the programme, Father Ryan's poem, "Elin's Flag." Will appear at Myers opera house next Thursday evening.

CITY GOVERNMENT.

Miscellaneous Doings of the Common Council.

The common council held a regular meeting last evening. His Honor, Mayor Richardson, in the chair, and all the Aldermen in their seats except Ald. Potter and Rooney.

The Journal of the three last meetings read and approved.

Pending the reading of the Journal Ald. Rooney took his seat.

The January statement of the judge of the municipal court, was referred to the judiciary committee, found correct and placed on file.

A communication was read from Chief Engineer Foster, stating that the steam hoist at the east side engine house had given out, and that it was necessary to provide a new "shell" at an expense of some forty dollars. The committee, was referred to the fire department committee, and subsequently the fire committee was instructed to repair the hoist.

A petition signed by several residents in Park street, asking the council to change the name of that street to River street, was read and referred to the highway committee.

Another petition, signed by residents and property owners, protesting against such change. Referred to same committee.

Ald. Potter took his seat, making a full board of aldermen.

The clerk read a number of miscellaneous bills against the various funds, which were referred.

Ald. Smith, of the finance committee, reported back the January report of the city treasurer as correct. Placed on file.

Ald. Smith, of the same committee, reported in favor of allowing bills against the various funds as follows:

General fund \$ 8.50

Fire ward fund 2.00

Second ward fund 4.18

Fire department fund 9.65

\$24.33

Ald. McLean, of the fire department committee, stated that the new steam hoist for No. 1 engine had been put in position, and was working satisfactorily.

Ald. Palmer, an order allowing [Chas. Deering \$1,262.75 for piles for the Milwaukee street bridge. Adopted.

Ald. Daly moved that the gas committee be instructed to investigate and report to the council at the next meeting, the location of the gas meter for the street lamps, and whether the gas was consumed that the city was paying for stating that he understood that the gas at the meter post was lighted first and was the last to be extinguished. The motion was adopted.

On motion of Ald. McLean, the Post House was rented for another year, and the committee was instructed to examine and report the condition of the building.

Ald. Potter inquired how much poll tax had been collected this year, and was informed that only \$42 had been paid in, and in reply to another question, the clerk stated that as high as \$600 had been collected in previous years.

Ald. McLean inquired the amount collected last year, and was informed that it reached a little over \$200. Ald. Potter moved that the street commissioner be instructed to collect the poll tax, and report at each meeting of the council during the term of his office. Adopted.

The council adjourned.

Who of us are without our troubles, be they small or large? The blessings of health are best appreciated when we are sick and in pain. A hacking cough, a severe cold, or any throat or lung disease are very troublesome; but all these may be quickly and permanently cured by Dr. Bigelow's Positive Cure: Safe and pleasant for children. Price 50 cents. Trial size free. Sold by Stearns and Baker.

THE FUNERAL OF MRS. COLVIN.

The solemn services connected with the burial of the late Mrs. R. L. Colvin took place this forenoon at St. Mary's church. The ceremony was performed by the Rev. Father Roche, pastor of the church, who was assisted by the Rev. Father McGinnity, of St. Patrick's church, and the Rev. Father Rowe, of Edgerton. After the celebration of the solemn High Mass, Rev. Father McGinnity made a brief and a very appropriate address upon the text "Who art thou," in which he showed that the great strife of the world was not in knowing more of man and his relation to eternity, but in penetrating the sciences, mastering the arts, and in the accumulation of riches. After showing the importance of making a thorough preparation for the life to come, he paid a beautiful and just tribute to the deceased, speaking of her consistent Christian life, her widely devotion and her motherly tenderness and affection.

Surrounding the casket were many floral contributions in kindly remembrance of the deceased. There was a large concourse of people present to pay a last tribute to one whose presence and death they deeply mourn. The pall-bearers were Hiram Merrill, Nicholas Smith, Clinton T. Wilcox, Martin Dunn, John Fitzgerald, and Ferdinand Quinn. The remains were taken to Oak Hill cemetery and were buried beside her son Charles.

Insanity is on the increase. Statistics show this. Many cases brought on by overwork, anxiety, excitement, mental trouble and nervous prostration; it is also inherited. Luvably sleeplessness before one becomes insane. Constipation induces dyspepsia, jaundice, bad breath, piles, liver, low spirits, headache, etc. Dr. Jones' Red Clover Tonic relieves constipation, thereby curing these diseases. Price, 60 cents. Sold by Stearns & Baker.

THE WEATHER.

At seven o'clock this morning the thermometer indicated 16 degrees above zero. Cloudy with northeast wind. At one o'clock p.m. the register was 43 degrees above zero. Fairly cloudy, with north wind. For the corresponding hours one year ago, the register was 17 degrees above zero.
